About Newbury Data

Since 1974, Newbury Data has become the UK's leading manufacturer of industrial impact printers and Credit Card Size encoded ticket printers. Newbury Data's reputation for our own high quality and highly reliable printers has made us the number one partner of choice from the worlds leading thermal printer manufacturers such as Citizen, Printronix and Zebra. Our expertise in impact and thermal printing solutions has allowed us to develop unique solutions to help our customers migrate from legacy desktop or stand alone systems to use Mobile, Wireless, RFID and fully automated solutions interfacing into the latest WMS and ERP systems.

With over 30 years of printing expertise, Newbury Data has the skills and understanding of printer communication and both native and alternative printer programming languages. Allowing Newbury Data to seamlessly integrate new printing solutions, into existing systems, without the need to change the current data streams. A vital tool when integrating current technologies such as Citizen and Zebra Mobile printers or Printronix and Zebra RFID Printer/Encoders & Sirit Readers into existing or new Auto-ID and RFID applications. To compliment our printing solutions, Newbury Data has become a Quality Partner of Datalogic and an Honours Partner with Intermec. These partnerships enable us to deliver full batch & mobile data capture solutions including customer specific hand held computer software or full WMS solutions, making Newbury Data one of the most sophisticated GS1 Auto ID solutions provider in the UK.
